

Our most powerful air purifier.

Wood's *ELFI 900*

Wood's ELFI 900 is one of the best and most exclusive air purifiers on the market, suitable for large apartments, offices and other rooms up to 160 m². This very powerful purifier has two Active ION HEPA filters and is powerful enough to clean the air in demanding environments, such as smoke rooms, cafés or printing shops.

The Wood's ELFI 900 cleans the air from harmful particles and provides you with a healthier indoor environment. The ELFI 900 can also be equipped with carbon filters to clean the air from unpleasant odour and gases (optional accessory).
