## **Eco -friendly and Human friendly Air purifiers.**

We design, develop and produce products that make a big impact on the air you breathe while making minimal impact on our environment. It is equipped with an **ebmpapst** fan especially developed for this model and its specific purpose. It is optimized for sound, efficiency and airflow to fit the AL310FC construction and provide the best possible effect. Every component is optimized to improve the health of humans and our planet, from the non-toxic filter media to the exterior finish. Built with environmentally friendly and easy to recycle all materials such as galvanized steel and recycled polypropylene, Wood's air purifiers and filters naturally break down, returning to their original carbon dioxide and water state. Wood's guarantees a healthy indoor environment at minimal impact on our environment for you and your family.

## **No chemical additives.**

Since polypropylene fibers are waterproof, Wood's purification systems do not require the use of chemical-based bacteriostats or mold inhibitors. Instead of absorbing the moisture in which bacteria thrive, polypropylene repels water and naturally prevents bacteria, mold and mildew from reproducing inside the filter.

## **Warranty**

Wood's leave as much as 10 years warranty because we know that we have a product of the highest quality and capacity produced in Sweden. Read more about 10 years warranty [woods.se](http://woods.se)

Wood's advanced fan assembly consumes very little energy. Consuming no more energy than your alarm clock.

## **Specifications**

Air flow	300m <sup>3</sup> /h
Max area	50m <sup>2</sup>
AHAM recommended area	19m <sup>2</sup>
Recommended area	20-50m <sup>2</sup>
Power consumption	4-19W
Noise level	From 25dB
Purification level	99,98%
Voltage	12 V
Weight	12kg
Dims, LxWxH (mm)	510x160x610
<hr/>	
CADR Smoke	132 m <sup>3</sup> /h
CADR Dust	145 m <sup>3</sup> /h
CADR Pollen	161 m <sup>3</sup> /h
CADR /Watt	7,6
