ECO Air purifiers

Wood's TALL 155

Designed and developed in Sweden the Wood's TALL 155 blends beautifully into your home and gives you some of the best air cleaning performance in the industry.

Wood's TALL 155 is a very compact and silent air purifier and it has the lowest carbon foot print on the market.

Wood's TALL 155 Is ideal for bedrooms and smaller rooms and can be used both wall mounted and freestanding (option).

Wood's air purifiers is truly a leading Eco-Friendly air purifier brand. Thanks to its patented Active Ion HEPA filter it removes >99,98% of harmful particles.

Made in Sweden 

Wood's®

Eco -friendly and Human friendly Air purifiers.

We design, develop and produce products that make a big impact on the air you breathe while making minimal impact on our environment. Every component is optimized to improve the health of humans and our planet, from the non-toxic filter media to the exterior finish. Built with environmentally friendly and easy to recycle all materials such as galvanized steel and recycled polypropylene, Wood's purifiers and filters naturally break down, returning to their original carbon dioxide and water state. Wood's guarantees a healthy indoor environment at minimal impact on our environment for you and your family.

No chemical additives.

Since polypropylene fibers are waterproof, Wood's purification systems do not require the use of chemical-based bacteriostats or mold inhibitors. Instead of absorbing the moisture in which bacteria thrive, polypropylene repels water and naturally prevents bacteria, mold and mildew from reproducing inside the filter.

Warranty

Wood's leave as much as 10 years warranty because we know that we have a product of the highest quality and capacity produced in Sweden. Read more about 10 years warranty woods.se and register your air purifier at warranty-woods.com

Wood's advanced fan assembly consumes very little energy. Consuming no more energy than your alarm clock.
